FINAL REJECTION

The rejection under 35 USC, 112 second paragraph, is withdrawn in view of the amendments to the claims.

Claim Rejections

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3 and 5 are rejected under 35 USC 103 (a) as being unpatentable over Woude et al (US2002/0044021, S/N=09/862,283) in view of von der Embse (US 4,860,321).

Woude et al discloses in Figure 1 a circuit comprising:

- a first band pass filter (1);
- a second bandpass filter (2); and
- a mixer (3) coupled between the filters (1, 2) and the oscillator (4).

However, Woude et al does not disclose that the filters are asymmetrical filters such as the quartz filters.

Nevertheless, Embse suggests in Figure 3 a crystal band pass filter (335) for providing a narrow pass-band with good stability in temperature since the crystal filter is very stable in temperature and offers a narrow pass-band.

Art Unit: 2816

It would have been obvious to a person having skill in the art at the time the invention was made at the time the invention was made to use the crystal filters in the circuit of Woulde et al as suggested by Embse for the purpose of providing a narrow pass-band with good stability in temperature

Response to Applicant's Arguments

The applicant argues that Woulde et al does not disclose that the filters are the asymmetrical filters such as the crystal filter. The argument is persuasive. However, this limitation is suggested in the von der Embse reference as stated above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
